

# **HOVER BENCH™**

THE POWER OF AIR

*The Hoverbench™ is an industrial-quality cabinet and work surface mounted on a Hoverbase™.*

*With the flick of a switch, the entire fully-loaded bench (thousands of pounds) moves **effortlessly** on a cushion of air, and locks **solidly** in position when parked.*

*The Hoverbench™ flies easily and is solid as a rock when parked.  
(patent pending)*

## **Featured Benefits**

### **Effortless Motion**

Fully-Loaded Bench Moves Freely  
on a Cushion of Air

### **Omnidirectional Movement**

Precisely Maneuvers Into Position  
Steers Instantly in Any Direction  
(No Caster Swing)

### **Zero Rollback**

Stays Exactly Where Parked  
No Gaps Between Adjacent Benchtops or  
Benchtops and Walls

### **Safe**

Greater Footprint and  
Stability Than Wheels – No Tipping  
No Trip or Snag Hazard  
from Protruding Wheels  
No Rollover or Pinch Hazard for Toes  
Any Person Can Move Many Hundreds or  
Thousands of Pounds Safely

### **No Jiggling**

Locks Easily And Solidly In Place  
Much Steadier Than Locking Wheels

### **Clean and Quiet**

Base Makes Full Contact Around Perimeter  
and Keeps Foreign Objects from Under Cabinet

### **Cost-Effective**

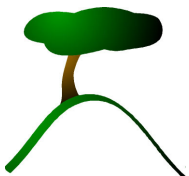

Cost Comparable To Wheels  
Maximizes Floorspace by Moving  
Projects/Equipment Where Needed  
Increases Production by Allowing Projects  
to Move Through Shop  
Additional 6 inches of drawer space  
compared to mounting on wheeled base

### **Customizable**

Available in Full Range of Bench and  
Cabinet Sizes and Configurations

### **Requirements**

Standard Compressed Air  
and a Smooth Floor
